# Casino

Industry: Casino, Gambling, Racing
Region: Yonkers, NY

## Stories of Digital Transformation

## Summary

The client operates a harness-racing track, Casino and entertainment facility in NY. Drivestream modernized their enterprise systems by migrating them from PeopleSoft Financials to Oracle ERP and Procurement Cloud Services.

## About

The client is an entertainment destination offering more than 5,300 slot machines, electronic roulette and craps, a variety of restaurants, live entertainment and a year-round world-class live harness racing and simulcast from the nation's leading racetracks

## Challenges

- Reduce volume of extensive manual workload and time-consuming paperwork

## Benefits Achieved

- Improved employee service, reduced process times, and eliminated paper and spreadsheet based procurement processes
- Streamlined, cost-efficient business processes by leveraging purchase agreements, negotiated pricing, procurement catalogs, requisitions, automated purchase orders, approvals, workflows and supplier integration
- Enhanced General Ledger accounting operations to achieve better integrations with banks and other external institutions.
- Achieved quantifiable improvement in self-service reporting achieved using OTBI

## Results

- Achieved significant IT cost reductions
- Streamlined and improved process efficiency for many critical business functions
- Significantly improved internal financial controls
